### Summary

I have over eight years' experience in design and full-stack development, building digital products that combine intuitive UI/UX with robust engineering. I founded webvise, a studio delivering branding, applications, and automation for global clients. Currently I work as AI Engineer at luca, focused on integrating AI agent systems into real-world products.

### Core Competencies

Communication	Creative thinking	Team Leadership
Problem-solving	Teamwork	Flexibility
Motivation	Responsibility	Ambition

### Technical Proficiencies
